Enter your special Activation Key here and click Submit.

The Campus Portal allows districts to force strong password usage by all users including parents and guardians. This requires a password that is at least six characters long and meets three of the four qualifications listed:

- A lower case letter (a, j, r, etc.)
- An upper case letter (A, J, R, etc.)
- A number (3, 7, 1, etc.)
- A symbol (@, %, &, etc.)

In addition, the district's administrator may force users to reset their passwords from time to time. By default, a dormant session will automatically end after a set amount of time determined by the district (usually between 25 and 60 minutes). This may vary from district to district since the district can establish the duration before the session times out.

Use the **Switch Student** drop down in the top left of the screen to view all of the students a user has rights to view and select a student to view Portal information for that student only. Only students with an enrollment in the current year or an enrollment next year will display in the list.
